# Club Philosophy

In March 2013 the club adopted a Club Philosophy to allow the core principles of Scarborough Ladies Football Club to stay in the minds of **everyone** associated with the club at all times.

Our philosophy is as follows:

- To encourage as many girls and young women to join in and play competitive and non-competitive football as possible.
- To help our footballers to grow as positive individuals in a welcoming, fun and supportive environment
- To support and encourage new coaches and managers to become involved with the club, assisting with training and mentoring schemes.
- To abide by the codes and regulations of associations and leagues to which we are affiliated, both as a collective and as individuals, including, but not limited to, support of equal rights policies and the RESPECT campaign.
- To work within strict, prudent and controlled financial objectives.

This philosophy is an extension of the aims and objectives as stated in the club constitution. For any more information on the club philosophy, please contact any member of the committee.
